

May Club Night "Amazing"

Last nights club night was attended by more than 40 people.... and was described simply as "Amazing"

Ian Thomas presented his revised "Making Blue Movies #2" with some new unseen footage including an argument between Mickey Mouse and Donald Duck at 100m + and filmed as part of the BBC Pacific Abyss series.... who says you don't get narked on Helium!! And finally Ian finished with some promotional footage shot by his team whilst diving with Humpback whales, I can only describe it as surreal!!

Once again we can only say thanks to Ian and envy the places he's been and the sites he has had the opportunity to dive whilst at work!!!

Hope to see more of you at the June Talk in Teignmouth.... come along and stay active in the area's largest diving membership scheme!!
